

# Safe Routes to School

## Section B: Safe Routes to School Planning Process

The expectation is that:

- Routes are selected based on where students live in relation to school.
- Action plan items are prioritized based on audits and surveys.

### 1. SRTS Planning Team Members

Provide the following information about the active members of school's SRTS planning team.

Name	Title/Role (e.g. teacher, parent, etc.)	Organization/Affiliation

### 2. When and how often did the planning team meet?

**3. How did the survey results influence the development of the action plan?**

**4. When did the walking audit/school property assessment take place, and who were the participants?**

**5. What did the walking audit/school property assessment tell you about students' ability to walk to and from school and on the school grounds?**

**6. When did the bicycle audit take place and who were the participants?**

**7. What did the bicycle audit tell you about students' ability to bike to and from school?**

**8. Have any other programs to increase active transportation taken place at the school? (Check all that apply and describe below.)**

- Walk to School Day
- Bike to School Day
- Walking School Bus
- Bike Train/Bike Brigade
- Corner Captains
- Other
